## A Story in Three Parts.

(PART TWO)

## Bryan Continues Aggressive Campaign

At the Beginning of the Campaign a Pamphlet was issued by Mr. Bryan announcing his views on public questions. Mr. Blount issued a similar pamphlet which has been followed up with innumerable advertisements, letters and circulars. Mr. Stockton, too, issued a "Declaration of Principles" and has otherwise advertised himself extensively. It behooves the voter to consider carefully what the candidates have to say, and in passing upon the qualifications of NATHAN P. BRYAN to note well—

**THAT—**  
**HE** does not advocate a federal income tax, because Congress has already passed favorable upon that proposition and as Senator he would have nothing to do with it.  
**HE** does not promise to secure federal appropriations for hard roads in Florida, because it would be simon pure political buncombe.  
**HE** does not devote 75 percent of his literature and speeches to an effort to explain that he can represent the people's interests as well as the corporate interests.  
**HE** does not apologize for any connection or affiliation, nor does he have to overcome any presumption that he will not represent the interests of the people as distinguished from the interests of the corporations.  
**HE** does not admit that he is so prejudiced against one section of the State that he cannot represent equally as well all sections, whether it be Pensacola, Apalachicola, Cedar Keys, Tampa, Key West, Miami, New Smyrna, St. Augustine, Fernandina or Jacksonville.  
**HE** does not feel it necessary to have letters written and circulated to the effect that he can be fair, that he is honest, and that he is the friend of the "toiling masses."  
**HE** does not promise to reduce the high price of living, unaided and alone, because he will be called upon to fulfill his promises.  
**HE** does not promise to make it easy for poor people to borrow money from banks, because that is impossible of accomplishment by legislation.  
**HE** does not promise to establish farming and industrial schools in the 2876 counties of the United States, but he does promise to work for the establishment of agricultural schools in each congressional district.  
**HE** believes that United States Senators should be elected by, and directly responsible to, the people.  
**HE** believes in liberal appropriation for waterways, because they are nature's competitors of the railroads.  
**HE** believes that hereafter no railroad company or private interest should be permitted to acquire wharves and docks to such an extent as to control or exclude general commerce.  
**HE** believes with Judson Harmon and Woodrow Wilson that "guilt is personal" and that guilty corporation officials should be individually punished for crimes committed under cloak of corporate names.  
**HE** believes in the physical value of railroads as a basis for freight and passenger rates.  
**HE** believes that the Inter-State Commerce Commission should be given such judicial power as to enable it to enforce its orders.  
**HE** is the candidate best qualified to initiate and secure legislation to the interest of the people of all sections and all classes.

**HE IS ABLE  
IS PROGRESSIVE  
IS A REAL DEMOCRAT**

He does not turn to the service of the people from 26 years of devotion to corporate interests. His mind does not run in a groove worn smooth by the habitual guarding of these interests.

He is the man who will make the "Little Journey" to Washington.

(Watch his space next week for the conclusion.)
